German Forces Attacked Americans Saturday in Three Waves — Were Specially Drilled

(By the Associated Press)

With the American army in France, April 21.—After the heavy German attack of yesterday, the Americans' main position remained intact, and this morning, after a brief bombardment, the American troops attacked and drove the enemy out of the old outposts which they had gained, thus breaking down an offensive which it is believed was intended as the beginning of a German plan to separate the Americans and French.

There was a comparative lull today along the sector northwest of Toul. The Americans engaged in the terrific hand to hand fighting yesterday showed the most daring bravery, stories of which are already being recounted.

As indicating the violence of the offensive French ambulance men who went through the famous battle of Verdun said today, comparatively speaking, the German artillery fire against the Americans was heavier than in any single engagement on the Verdun front at any time.

Paris Confirms Reports.

Paris, France, April 21.—Fighting between Franco-American troops and German forces in the vicinity of Seicheprey, northwest of Toul, where the Germans yesterday launched a strong attack against the French and Americans positions continued throughout the night. The war office statement issued this afternoon says the French recovered nearly all the ground overrun by the Germans. American troops fighting in this sector, the announcement adds, repulsed the Teuton assault on their lines.

Gains Capture of 183 Americans Berlin, Germany, via London, England, April 21.—The capture of 183 Americans and 25 machine guns by the Germans is claimed in the official report from headquarters today. The Germans storm troops it is also declared advanced to a depth of two kilometers (about a mile and a quarter) into the American lines at Seicheprey. The Americans, the statement adds, sustained heavy losses.

(By the Associated Press)
With the American Army in France, Saturday, April 20.—German forces which attacked the American position west of the Remiers forest, northwest of Toul today, came across No Man's Land in three waves. They had been especially trained for this operation. The Americans, although greatly outnumbered fought for every inch of the way giving round slowly and pouring a deadly machine gun, rifle and automatic fire into the advancing enemy.

Germans Caught in Barrage.

The German barrage fire began just before sunrise, following a heavy bombardment on the American front and rear positions in the course of the night. In an attempt to put the American battery out of action, the Germans used an unusually large number of gas shells, but our artillery replied vigorously, hurling hundreds of shells across the Toul front.

A counter barrage set down by the American artillery caught the advancing Germans and killed a number of them before they had an opportunity to reach the American trenches. The Germans entered the shell torn village of Seicheprey in the forenoon, but remained only a short time, being driven out again by a brilliant counter-attack made by the American infantry. The commander of one unit holding an outpost reported at one

British Artillery Stops Advance of Boche Troops

London, England, April 21.—German troops last night made an attempt to push their way through the British lines northeast of Ypres, on the northern battle front. The advancing troops were stopped by the fire of the British artillery says today's war office statement. On the remainder of the British front there were minor operations.

The British troops near Robecq, northwest of Bethune, today drove out the Germans from some of their advanced positions, according to Field Marshal Haig's statement issued by the war office tonight. Aside from artillery engagements, there was little other activity along the front Sunday.

ENGLISH AND FRENCH CERTAIN OF VICTORY

"They Shall Not Pass" Is Echoed Once More As Allied Line Stands Like a Rock

Paris, France, April 21.—The great German offensive on the western front has now been going on for a full month and the French press is unanimous in its optimistic comment. The Temps said:

"The formidable assault which for a month past von Hindenburg has thrown against the British army have not succeeded in breaking our allies' resistance. They have given ground, but Germany's soldiers always found before them lines which have been bent but have not yet been broken."

The Intransigent says:

"The struggle is entering its second month. Calm reigns. The third attack is being prepared perhaps as tremendous as the previous two, but our optimism is reasoned and justified. They shall not pass."

London, England, April 21.—Writers to the Sunday newspapers reviewing the fighting in Flanders last week emphasize the splendid resistance offered by the British troops to the German onslaught, the Observers said is "glorious and solid achievement, second to none in our history."

This paper continues: "So far we hold like a rock. On the road to Calais and Boulogne the Germans instead of gaining another ten miles have not gained ten yards. We do not mean that the issue already has been definitely decided against the enemy. Beyond all doubt there will soon be a third and bigger attack. But in one respect the conditions are changed, not momentarily but permanently, for the better. * * *

FRENCH BEHIND HUN LINES MADE SLAVES

Oppressed Civilians Have to Submit to Restrictions and Are Terrified

French Front, April 21.—(Correspondence of The Associated Press): Life among the French civilians behind the German lines in the occupied departments of France has become almost slavery. The oppressed people have to submit to restrictions depriving them of all the usual amenities of human existence. Details of the terrorizing process introduced by the Germans, which is daily becoming more severe, have reached the correspondents of the Associated Press from a number of centers where the German army holds possession.

According to some of these communications everybody—that is to say, men, women and children—is forced to work for the German conquerors, especially in the country districts and towns near the front. One young woman—and she is only one among many—tells how she was made to fell trees in the forest of Saint-Gobain, which was under constant gunfire while in the same vicinity all the supply columns for the troops in the most dangerous parts of the line were formed of French civilians.

In the neighborhood of Cambrai an agricultural work is carried out by the peasants under the surveillance of German soldiers and when the produce is ripe it is all requisitioned by the military authorities. The factories in the city itself have been robbed of their machinery with the result that large numbers of workers have been reduced to semi-starvation and consequent sickness. At the end of 1917 there were still 7,000 inhabitants in the city, all of whom were compelled to take refuge in the cellars.

LOAN WORKERS TOLD TO REDOUBLE ALL EFFORTS

Treasury Wants Nation to Reach Three Billion Dollar Goal This Week

Washington, D. C., April 21.—Liberty Loan workers throughout the country were instructed tonight by the treasury to redouble their efforts to make this a banner week, and if possible raise the total of subscriptions from \$1,271,000,000 obtained in the first half of the period, to near the three billion dollar minimum goal.

Headquarters reports show that the campaigners were told that only about 4,000,000 persons had subscribed so far and this is only one-fifth of the 20,000,000 subscribers which it is hoped to enroll. Apparently only one in every 15 adults has bought bonds.

In the remaining two weeks, the task of local committees will be to go over their respective fields carefully, looking for persons who intend to subscribe, but who are procrastinating. This will be particularly necessary now that the spectacular elements of the campaign opening are passed. Liberty day, Friday, is to provide one more high light in the campaign, however, and hundreds of communities are planning big parades of soldiers and bond subscribers or rallies with noted speakers to celebrate the day.

The Third Loan apparently is proceeding faster than the second, for when the second was half over only about \$800,000,000 had been subscribed. The better record of the present drive is attributed mainly to early competition among cities and towns to the honor flags, and to the fact that the public is better acquainted with the merits of the government bonds and needless education.

The outstanding fact of the third campaign so far is the liberal outpouring of subscriptions from farmers and other residents of smaller communities.

Service Flag Parade.

New York, April 21.—With the half way mark passed in the Third Liberty loan campaign and less than half the quota for the New York Federal Reserve district, the drive in this state continues with renewed interest. A "service flag parade," in which it is expected will march fully 30,000 men and women with relatives in the service, will be the feature of the Liberty day celebration in this city next Friday, the loan committee announced today. This "win the war" demonstration was originally planned for next Saturday, but the date was changed when President Wilson issued his Liberty day proclamation.

Jamestown, April 21.—The total amount pledged for the Liberty loan in this city to date is \$1,175,900, exceeding the city's quota of \$1,152,300.

HUN BIG BERTHAS AT FRONT POUND FRENCH

German Artillery Active All Along Line From Castel to South of Noyon

(By the Associated Press): With the French army in France, Saturday, April 20.—German artillery, especially the guns of the heaviest calibre, which appear to have reached the front in considerable numbers, have been extremely active along the front from Castel to the south of Noyon since the successful French attack between Tannay and Mailly-Raineval, northwest of Montdidier, on Thursday. The French guns have been replying most vigorously and have been battering the German front line and the concentration of troops in the back areas.

In the vicinity of the river Ailette large flights of aviators of both adversaries were occupied both Friday night and today in reconnoitering and in attacking each other's depots and cantonments. The French airmen continually harassed the German supply columns.

Distinct indications have been observed farther north of the Germans' preparations for some kind of a movement between Arras and Amiens. Whether they will develop into an effective action cannot be foreseen, but there seems to be a great possibility that another attempt will be made to sever the link connecting the French and British.

Hitherto, thanks to the magnificent handling and bravery of the Allied soldiers since the first German onslaught, all efforts in that direction have failed and after a full month of almost constant attacking the Germans in summing up their results can only find that they have sacrificed many of their best divisions without adequate repayment for their enormous losses.

TOWNS DAMAGED BY EARTHQUAKE IN CALIFORNIA

Only 2 Known Deaths After Shock Felt Over Wide Belt

HEMET IS DESTROYED

Panic in Amusement Places in Los Angeles Where Many Windows Are Shattered

QUAKE CALLED WORST IN YEARS

Buildings Thrown Out of Plumb and Cracked—Felt As Far As Utah and Arizona

Los Angeles, Cal., April 21.—A general earthquake shock felt throughout southern California at 3:30 this afternoon practically destroyed the little town of Hemet, 25 miles south of Riverside, and did damage in a score of other towns and cities. Only two deaths were reported early to-night but many persons were injured by shattered plate glass or objects shaken from buildings.

At San Bernardino the quake was said by old residents to be the worst in years. Scores of plate glass windows were broken, a hundred feet of brick wall from one low building fell into the street and several other walls were cracked.

There was a panic at the ball grounds where a game was in progress and one man was hurt in the rush to escape. Another, running out of a theatre into a street was struck by a passing automobile and seriously injured.

Riverside suffered a shock of similar intensity. Ornaments were shaken from the courthouse cornice and windows smashed.

Wall Falls Upon Automobiles.

At Banning, the front of the Odd Fellows building fell out, striking two automobiles which had just been vacated by their passengers.

The tremor was first reported from Barstow at 3:30 p. m., and apparently moved east and south from that point. It became most severe in the Hemet and San Jacinto section and farther north about San Bernardino.

Coming on toward the coast the tremor did slight damage at Whitier and other intervening points and then struck Los Angeles at 3:32 p. m., there being two shocks.

In this city the earthquake broke a number of large plate glass windows in office buildings. There was almost a panic in the numerous theatres and picture houses.

The City hall stands two inches from an adjacent building. The tremor swayed them together and crushed off brick and stone dust.

Panic Among Jail Birds.

At the city jail there was a panic among the prisoners when glass crashed from the upper windows. Bricks fell from the cornice into the street. During a meeting of the Half Century club held in the old normal center in the center of the city, the chandeliers fell and a panic was averted by the band playing "My Country 'Tis of Thee."

At Santa Monica, a seaside town near here, the crowd was on the municipal pier which swayed carelessly and in the rush to escape Frank E. Darbell, a retired manufacturer of Los Angeles, was thrown down and trampled to death.

The bath house at Santa Monica canyon was also the scene of a panic when the building swayed and cracked. Patrons scrambled from the brick and stone dust.

dressing rooms and rushed back to shelter.

Several hundred pleasure seekers on the Relindo pier made a rush for land when the pier began to sway and several were slightly hurt in the resulting crush. There were several small panics in public places, but it was reported that no one had been seriously hurt.

Two Towns Lose Business Sections.

Hemet, Cal., April 21.—This town and San Jacinto, which lies north of here about two miles on the same branch of the Atchison, Topeka and Santa Fe railroad, were both seriously damaged by a severe earthquake shock at 3:30 p. m. today. Every business house in Hemet and San Jacinto was laid flat, but only two lives were lost.

The property damage here is estimated at \$250,000. The damage at San Jacinto was estimated at a like sum.

San Bernardino, Cal., April 21.—Twenty brick buildings were destroyed and one woman probably fatally injured at Hemet today, according to J. O. Ridenour of this city, who left Hemet by automobile immediately after the tremor. The telephone and telegraph lines were down and water and gas mains were broken in many places.

Only Post Office and Bank Remain.

The only buildings left standing in the business district are the post office and the bank, according to reports received here from persons who fled after the earthquake late today.

It was also reported that there had been some loss of life, but this statement had not been verified here.

According to reports received here by Santa Fe railroad officials, the earthquake which caused much damage at Hemet and adjacent points late today, was felt as far east as Milford, Utah, and was also felt at Seligman, Ariz.

The damage here included about \$2,000 destruction at the Santa Fe railroad shops, where the machine shop was badly damaged and other buildings were thrown out of plumb.

Buildings Rocked Half Minute.

The quake, which came with such warning as was afforded by a brief light shock lasting perhaps ten seconds, was the most severe ever experienced here. For 30 seconds the buildings rocked and swayed and the ground heaved so that persons standing in the streets and fleeing from their homes were even thrown from their feet.

As the ground tremored increased the walls of brick buildings in the business section toppled.

The hills surrounding the town were obscured by a dense haze which many people first believed preaged an eruption from some old volcanic crater, but which was caused by thick clouds of dust. One man who was watching the hill at the time of the disturbance, said that Strawberry peak, a large mountain, appeared to rise bodily and then drop back into place. No word has been received from the numerous families settled on its slope, but it was assumed here that they escaped personal harm, as did most people in the two towns. There was no disorder at either town, the home guards here having turned out promptly and taken charge of the policing while a hastily organized force of citizens performed the same service at San Jacinto. Owing to the fact that the business districts where the heaviest damage occurred, were practically deserted on Sunday afternoon the casualties were negligible.

Legislation to curb spies and disloyalists also will receive more attention during the week. Senate and house conferees begin work tomorrow on the sedition bill, with its drastic penalties for disloyal acts or utterances, while the senate military committee will resume hearings on Senator Chamberlain's bill to transfer jurisdiction from civil courts to military tribunals of many acts of sedition. The committee plans to report the bill favorably very soon.

RECTOR REMOVED FLAG; NOW READY TO RESIGN

Says Parish Need Not Force Him Out—Loves Country, But War Is Not Lord's Way

Long Island City, April 21.—Rev. Leigh Urban, rector of the Episcopal Church of the Redeemer, in the Astoria section of this city, who is alleged to have removed from the church recently an American flag hung there by members of his parish

"because the banner symbolized war," announced from the pulpit today that the parish "does not need to think of forcing me to resign, as I stand ready to do so at any moment."

Bad Weather Mars First Week of 1918 Baseball Season—16 Postponed Games

New York, April 21.—New York, 1917 champions of the National League, and Boston, runner-up last year in the American League went to the fore with clean records in their respective leagues in the opening week of the 1918 major league baseball season, which was marred by unfavorable weather. Twenty-seven games were played and 16 postponed.

The Giants took three straight from Brooklyn and one from Boston and the Red Sox scored three victories each over Philadelphia and New York.

The National League champions found Marquard easy on opening day. The Superbas fought hard throughout the series however, batting out Tarteau and Demaree after their rival borough players had a commanding lead, but were stopped by Anderson and Sallee. Jesse Barnes, in his debut, blanked Brooklyn Wednesday, and Anderson shut out Boston Saturday.

Philadelphia took the opening game from Boston but was overwhelmed Wednesday when Herzog joined the Braves. The deciding game of the series Friday, went to ten innings before the Quakers scored the extra run. Meyer's men batted Marquard hard in Saturday's game with Brooklyn. Schneider of Cincinnati held Pittsburgh to one hit Tuesday, but the Pirates turned the tables the next day by scoring seven runs in one inning on Regan. Mathewson's men took the rubber Thursday by a sensational ninth inning rally. St Louis popped Alexander for nine hits to a line of 17 bases in the opener with Chicago. Vaughn pitched the Cubs to victory Thursday. Bad weather interfered with both teams during the week. Today, with Alexander in the box, Chicago defeated Cincinnati, while cold weather caused St Louis and Pittsburgh to rest.

In the American League Boston beat Philadelphia three times. Ruth disposed of the Athletics with four hits in the opener. Mayes blanked them with one hit and when Leonard weakened toward the end of his game his team mates came through with a ninth inning three run rally that sent Connie Mack away disappointed. Friday the Red Sox made holiday by taking two games from New York. Mayes scored his second victory of the week, over New York Saturday.

Cleveland played only two games and won both. Washington broke even in its four games. Johnson was ineffective against New York, losing the opening game and being charged with defeat Wednesday when he pitched the last four inning of a 12 inning game.

St. Louis and Chicago divided two games, the Browns hammering Gowland's world series pair, Cicotte and Faber, on Tuesday. Williams held St. Louis to four scattered hits and no runs Thursday. Rain today again prevented Chicago and Detroit from playing, and St. Louis outslugged Cleveland, each team using three pitchers.

Detroit lost its only game, with Ty Cobb absent because of illness. Philadelphia suffered four straight defeats, three of them by a one run margin.

The batting of the New York American team for the week was remarkable. The Yankees made 53 hits for a team average of .286.

RIPS THE ADMINISTRATION.
New York, April 21.—Representative Frederick H. Gillett of Massachusetts, acting Republican floor leader in the house of representatives, in an address before the Republican County committee here last night, charged the present national administration with extravagance, petty politics and delay in war preparations.

"We were to make the world safe for democracy," he said, "but we don't want to see the war preparations diverted to make the next election safe for the Democrats."

FINANCIAL AND COMMERCIAL

The New York Market.
New York, April 21.—The widespread recovery and greater activity of this week's market for securities was obviously the result of the improved war outlook. The more satisfactory understanding between the government and the country's financial interests was another important factor. There was an increasing disposition to regard the crisis in France as having passed, but bankers impressed the speculative fraternity with the need for further caution.

Public participation, the first in several weeks, was seen in the advance of certain market leaders. United States Steel asserting the leadership at the highest level since the move on the western front assumed serious proportions. Other equipments and the more distinctive war stocks shared in the advance. Copper and rubbers derived much of their support from the belief that the forthcoming federal price revision would be on an advantageous basis.

Rails alone failed to make more than moderate upward progress, although the returns of the Reading system and several other important transportation lines were extremely favorable.

Foreign exchange, except for rates on Spain, which sold at a new high premium, with subsequent reaction, was steady.

The Carmen in this picture while a woman of the dance halls who seeks only the gold she can induce man to give her, shows in the end that every woman's heart is a treasure-land that love alone will discover. "Carmen of the Klondike" is the most tense and gripping drama of the silent north ever shown, where man's passions make the law and a man's standing depends upon his brute strength. The fight scene makes one think they are no longer humans but raging beasts. This picture surpasses "The Spoilers," "The Barrier," and "The Flame of the Yukon."

Hobart Has Oversubscribed Quota by \$14,000—Red Cross Activities.

Hobart, April 21.—Hobart and vicinity is still going strong in the Third Liberty Loan campaign.

The total subscriptions at the National bank of Hobart had reached more than \$55,000 last night, a little over \$14,000 in excess of the quota.

The honor flag has been received and hangs in a conspicuous place in one of the big front windows of the bank building.

The subscription lists show that more than 350 people have bought Liberty bonds, indicating that the loan is immensely popular in this section.

The drive will be continued with vigor during the next two weeks and it is hoped to go "over the top" with a total of \$75,000.

Red Cross Workers Needed.

The Hobart Red Cross has received an emergency call for 475 surgical

dressings to be delivered on April 27.

The cutting committee met yesterday afternoon and prepared a large amount of work for the meeting Tuesday afternoon of this week.

It is earnestly requested that the workers turn out in full force Tuesday afternoon at 2 o'clock. This emergency order can be filled only if the workers respond.

Our men are now in the thick of the fight over in France and they are giving a good account of themselves. They are being wounded, they are bleeding and dying that our homes and our lives may be safe. They need surgical dressings. We must supply them. Let none falter now!

Brief Hobart News.

THE SITUATION IN FRANCE.

There is no doubt that after more than a month of fighting, in which the gain in territory and the loss in manpower has been with the Germans, the conditions for the Allies appears to be improving. The drive is a long salient into the line of the British in Northern France. It is true, but it appears now to have reached about its limit. Prominent tacticians say that the difficulties which the Germans are meeting increase daily with the longer distance over which troops, guns and munitions must be carried over almost impassable territory, and that it will not be possible to continue it. Also there is danger on each side as the salient lengthens that the Allies may apply the famous scissors process and either squeeze the Teutons out or cut them off entirely from retreat.

To these statements the Allies add the further one that all their fighting has been done thus far by their regular forces. The vast reserve, amounting to over 600,000 men, has not yet been called into action, so they state; and when the time comes for it to move there will be swift reversal. Under very much similar conditions as now exist General Joffre is said to have remarked, "The further you can stretch the rubber cord of your salient without breaking, the swifter and more deadly will be the recoil." It may be that this same plan is being followed by General Foch, when by retreating in good order he lures the enemy as far as possible from its base.

It was lately said to some one who had been criticizing the history, not only in this war but in many others, of the English army, that "the English army never wins any battle—but the last one." It is a significant statement of the sort of mettle which is found in the English, who fight on and on and never know that they are beaten; and who in the end achieve decisive victory. That is the thing which is looked for now, with the assistance not merely of the French but of our own brave soldiers who in the trenches and elsewhere are showing the stuff which they are made of.

RETURN LOADS WANTED.

The thing which on railroads makes for cost of service and to some extent for delay therein is the unavoidable lack in many cases of return loads. Whoever watches the trains of empties which daily pass through Oneonta or any other railway city must have been impressed with this. If only some plan could be devised by which there could be a haul both ways, the situation would be much relieved.

The State Defense council has lately taken up the use of motor trucks between cities, and it is urging that return load bureaus be established in every county. It is proposed in this way to prevent waste of effort and of valuable cargo space, going or coming. "Whenever," the Council says, "Motor trucks carry goods from one point to another in the state, they should return full and not empty. To accomplish this every city or village of more than 3,000 inhabitants is asked to establish a central bureau where truck-owners and shippers can be applied for service."

While it cannot for obvious reasons always be made to work, any more than it can on railroads, there is no doubt reason in the suggestion. A motor truck which carries a load of goods from Oneonta to Cobleskill or Cooperstown and then returns empty, is using nearly as much gasoline, time and labor returning as going. And unless something can be found for the car to do returning, it is waste which must be charged to the original shipper.

LACK OF SPORTSMANSHIP.

Penalties Imposed in March for Illegal Hunting and Fishing.

The report of the State Conservation commission for the month of March shows that there were 155 violations of the fish and game law reported, with 107 fined or settled in civil action penalties to the amount of \$2,044 recovered along with one jail sentence and several cases in which sentence was suspended.

The figures are for the state. In the county of Delaware there were two cases of illegal possession of deer with total fines of \$75. There were no cases in Otsego or Schoharie counties.

The Nation and the Canals.

Under the same act of Congress by which the Government took over the nation's railroads as a war measure, it now takes over the operation of New York State's barge-canal system. The only important difference is that with the roads it was able to acquire some rolling stock, while with the state's barge canals it acquires no barges. It must construct barges of its own and that is what Director General McAdoo will immediately proceed to have done. Barge canals without barges are not particularly useful either for war or anything else. What the state has neglected to do for itself will now be done for it at its own ultimate expense and without any credit to itself.—[New York World.]

COMMENTS OF THE PRESS

What One Cent Did.
The big Chicago packing-house which so far as dealing in eggs is concerned, Food Administrator Hoover has put out of business for 30 days and fined \$3,900, has been convicted not so much of profiteering as of disobedience. A commission house paid 48 cents a dozen for 12 cartons of eggs, which was one cent a dozen above the price fixed by the Food Administration. The packers paid 48 cents a dozen for the shipment and sold at 51 cents to wholesalers and retailers who, of course, had to have their profit. It is on these cents and half cents that great fortunes are reared, often legitimately, but not so in this instance. The offense of the commission men, who also have been penalized, was in outbidding competitors who were obeying orders. One cent a dozen on tens of thousands of dozens of eggs meant a great gain to the shippers. Possession of the eggs in an active market meant quick profits to commission men and packers. By the time the eggs reached the consumer the 1 cent wrongfully paid in the beginning probably became a nickel, and that nickel was extortion. Mr. Hoover is making friends as well as enemies, and both know the reason why.—[New York World.]

Mr. Creel.

Actual or inferential responsibility for the doings and utterances of George Creel cannot any longer, consistently with the public welfare and comfort, be borne by the administration. It is the general impression that when he speaks for the President, an impression he has not very energetically sought to dispel. His declaration that he should be proud to his dying day "that there was no rush of preparation in this country prior to the day the President went before Congress" could not have been made at a more inopportune time, but that is not the worst of it. It is an avowal never to be made by anybody at any time. It has aroused public indignation to a degree which is only faintly reflected by the denunciation directed against it in Congress.

The usefulness of the Bureau of Public Information has never been satisfactorily demonstrated, but the demonstration that it should have a new head is complete and conclusive.—[New York Times.]

Britain's Cheapest Meals.

The Royal Borough of Kensington now maintains three communal kitchens, which have proved a remarkable success during the short time they have been open. An excellent meal can be obtained for sixpence, the menu being: Soup, 1d.; fish cakes, 2d.; half portions of potatoes and cabbage, 1d.; cornflour mold, 2d. These figures are in such piquant contrast with restaurant prices that as the communal kitchens are not philanthropic organizations, they in themselves dispose of restaurateur's defense of his inflated prices.—[Boston Transcript.]

EVERYBODY PLANT POTATOES

Woodcraft Potato Club Offers Gold, Silver and Bronze Medals to Boy and Girl Prize Winners.
Hot, mealy potatoes may not terribly fit the Hun from a cannon's mouth, but they will help feed us at home so we can send wheat to Europe, so the soldiers can shoot hot shot at the Germans. So after all every potato is a shell aimed at the Hun.

Ernest Thompson Seton is again urging boys and girls and adults as well to become Potatians. The campaign for potato growing, in which his Woodcraft Potato club was conspicuous last year, meant a tremendous increase in this important food crop. In some cases there was local over-production, and yet potatoes were high in other sections because of lack of transportation facilities.

This year the motto is "Grow a Bushel of Potatoes and Save a Bushel of Transportation." Herbert Hoover in letter to Mr. Seton said such efforts "last year saved the country from a critical shortage at a time when the railways of the country were badly congested," and urges "the importance of making each community self supporting."

Every boy and girl can help and it is hoped that in every garden this summer some space will be given to potatoes. Anyone who grows 24 hills may become a member of the Woodcraft Potato clubs, wear the button and compete for the prizes which will be awarded: gold, silver and bronze medals:

1. For the largest crop on any sized plot of land.
2. For the largest crop in 24 hills.
3. For the largest potato in 24 hills. Those who grow a bushel of potatoes will be given a certificate of patriotic service to hand down to future generations.

Having done their duty on the Liberty bonds, War Stamps, Red Cross, Y. M. C. A., Knights of Columbus, and the other war measures, the next thing for Mr. Commuter and his family and everybody who has a little piece of ground, is to "Put the Hoe Behind the Flag" and make potatoes grow where none grew before.

The Answer of Charles.

The Emperor Charles' furious denunciation of "Clemenceau's low accusations" against him reminds one of the thief who, with the stolen goods found upon him, affects indignation and exclaims: "Someone is trying to ruin me!" If Charles did not write the letter to his brother-in-law, Prince Sixtus, admiring the justice of the claim of France to Alsace and Lorraine, then Prince Sixtus forged it, and that supposition is barred by the whole world's knowledge that Prince Sixtus is a man of a higher calibre of honor than they know anything about in Austria.—[Boston Transcript.]

DOCAD MENTION.

Members of the Red Cross cutting committee meet Monday morning at Mr. Baird's garage.

Dan Sherman and his company of comedy players are booked for the Stone Opera house at Binghamton, April 29, 30 and May 1.

The supper held last Saturday evening at the Lutheran church on Grove street was largely attended and patronized and a substantial sum was realized.

LIBERTY LOAN SUBSCRIPTIONS.

D. & H. Men Still Leading in Activity With No Bank Report Available.

No report was made of the general subscriptions received at the local banks on Saturday and the total for the city to date is not known. The D. & H. committees are continuing the work actively and plan to go "ever the top" in fine shape. Sup't. McNeillie's transportation department reports a total to date of \$11,000, of which \$2,550 will be credited to Oneonta. The division accountants' men have subscribed for \$3,000, while Mr. Donelan's committee is cleaning up, seeing every available man of the locomotive department and has \$27,000 sold.

At a meeting of the signal department men headed by A. Vaille, supervisor of signals, held on Saturday, 21 signal men were present and they subscribed to \$1,750 of the Third Liberty Loan. A further meeting of the men will be held today at 10:30 o'clock, at which time it is expected that others of the signal men will gather and the roll completed.

Today the work of the local committees will be more vigorously pushed and the enumeration of all citizens made. It may not be amiss to state that the canvassers are required to make a detailed report as to each individual and any one refusing to give the information required on the blanks can and doubtless will be prosecuted.

U. C. T. Memorial Service.

A special memorial service for the United Commercial Travelers was held at the First Presbyterian church last night and attended in a body by 27 of the members of the local organization. Dr. J. C. Russell, the pastor of the church, addressed the men on their organization, reviewing the history of commercial travellers from olden days to the present.

During the course of his address, Dr. Russell referred to the fact that the local organization had lost one of its valued members, C. H. Gorton, by death during the year, and referred to his character and standing. He also made allusion to the long and honorable standing of commercial travellers, citing the time when in ancient days they traveled along the Mediterranean sea in boats.

MEETS SHOCKING DEATH

JAMES D. HAND, WEED KNOWN D. & H. TRAINMAN, KILLED AT SCHENECTADY.

Accident occurs Sunday afternoon while switching crippled cars—Believed he was caught between engine and car—Funeral arrangements not completed.

James L. Hand, son of Mr. and Mrs. Charles A. Hand of 424 Main street, and a young man well known in the city, met with an instantaneous and shocking death at Schenectady Sunday afternoon, about 2:20 o'clock, while engaged as trainman on Extra 1048, northbound, in charge of Conductor Harlow and Engineer Walsch of this city. The train had stopped there to switch out crippled cars and it is believed that the unfortunate man was caught between the engine and one of the cars, although whether he slipped and made a misstep will probably never be known as no one saw the accident. His body was found lying near the track by Conductor Harlow. One arm had been severed and his head had been quite severely injured. The body was removed to the station and turned over to Undertaker Rivo Tillapaugh, who took it to his undertaking rooms. Later it was brought to this city and taken to the parlors of Undertaker McCormick, where it was prepared for burial, after which it was removed to the grief-stricken home. The funeral arrangements have not been completed, but will be announced in The Star of Tuesday.

Mr. Hand was one of the best known young men in the company's employ here and had many friends who are deeply shocked at the news of his death. He was born at West Oneonta Nov. 15, 1885, his father then conducting a general store and being postmaster there. In 1890 the family removed to Laurens, where he continued to reside until 12 years ago, when they became residents of this city and have since remained here.

The deceased was a member of the graduating class of the Oneonta High school, class of 1904, and was popular with his schoolmates, as he has since been with other associates. For a time after graduation he was employed in a clerical capacity at the yard office at the Fonda avenue crossing of the D. & H., and later assisted his father, who is superintendent of the shoe department of the Oneonta Department store. Afterward he entered the employ of the U. & D. company and served for six years as trainman with that company. For the past year and a half he has been with the D. & H. company in a similar capacity. He was a member of D. Hopkins lodge, B. of R. T.

He was especially devoted to his mother and she having been ill he had lain off for the past week to be at home and care for her. He reported for work yesterday. Fortunately his sister, Mrs. Floyd Harter, of Herkimer, arrived for a visit yesterday and she reached the home about an hour before he left for work. The parents and the sister named are the near relatives surviving.

Mr. Hand had many qualities that attracted and held friends. He was genial and friendly always. He was devoted to outdoor life, being especially fond of trout fishing, at which he was an adept. The sympathy of a wide circle of friends of both himself and family will be extended to the latter in this hour of bereavement.

RECENT ENLISTMENTS.

Men Who Have Volunteered for Duty With the Colors.

The Local Exemption Board reports the following enlistments with assignments made on Friday and Saturday: George H. Winne, as painter Palmer Mulrane, as cook.

Claude T. Irish, as telephone electrician.

Willard Edinger, as locomotive engineer.

Stanley Cornell, as clerk.

Frederick Fromhagen, as clerk.

Willard F. Otto, as infantryman.

He will go to Camp Dix with the next contingent on April 30.

The Girls Over Here.

We all know and hear constantly about what our boys are doing "over there," but do we think of how much the "Girls Over Here" are helping to "Can the Kaiser?" Last Friday evening a play was presented at the Presbyterian church entitled "The Girls Over Here," and this will be repeated Wednesday night at the Woman's club for the benefit of the Red Cross. Besides the play itself, there will be a program of singing and speaking. Come and see what we girls are doing for Uncle Sam! Admission will be only 15 cents.

LIBERTY LOAN MEETING

Mammoth Demonstration Announced for Next Friday Evening at Armory.

Chairman L. P. Burts of the Liberty Loan committee announces a mammoth demonstration in Oneonta next Friday night, Liberty Loan day. Co-operating with the New York committee the local committees will endeavor to carry out a program interesting and instructive. A parade will take place early in the evening, after which the crowd will assemble in the armory. A soloist from New York city and a director of community singing also will be present. The musical numbers as planned should prove an interesting part of the exercises. Among the speakers will be Judge W. L. Bolton and Dr. J. C. Russell of this city. Mayor Ceperley will preside.

This meeting was originally scheduled for Saturday, but through the efforts of the local committee the date was changed.

A meeting of the general Liberty Loan committee of this city is called in the Chamber of Commerce rooms tonight at 7:30 when details for the Friday night meeting will be taken up and perfected.

Mayor Ceperley will issue a proclamation in harmony with that of President Wilson urging the general observance of Friday as Liberty Loan day.

THE "BETSY ROSS" PICTURES.

Help, with Songs and Speeches, to Boost the Liberty Loan.

A feature which Saturday afternoon and evening attracted much attention from passers-by on Main street was the entertainment in furtherance of the Third Liberty loan, which was given at the Shearer Music store. A fine replica of Harrison's famous picture of "The Making of the Flag" filled the show window and the part of Betsy Ross was taken, one after another, by young ladies of the city, who wrought with deft fingers at the national emblem. The young ladies taking part were the Misses Eva Trauner, Helen Shearer, Margaret Gurney, Mabel Elmore and Marjorie Russell.

There were also many patriotic musical numbers. Among the well-known vocalists of the city who contributed their services were Miss Sara Emery, Mrs. David H. Mills, Miss Edith Smith, Miss Eva Trauner and Miss Katherine Carless and Messrs. Byron Cheshire and Arthur Wheeler. The speaker of the afternoon was Secretary C. E. Westervelt of the Chamber of Commerce. In the evening the addresses were by Dr. George J. Dann and Mayor Ceperley. All were inspiring and patriotic and were effectual in furthering the bond subscriptions, which both afternoon and evening were liberal.

Notable facts in connection with the window display are that some of the gowns worn were over 100 years old, while the furniture was of a like antiquity. The pewter tea set on the mantle over the fireplace was a gift in the long ago at the wedding of the parents of the late Prof. Nathaniel P. Bull.

MUTT AND JEFF TOMORROW.

Better Than a Circus For All Children from 5 to 50.

Has it been your privilege to witness Gus Hill's complete production of Bud Fisher's biggest and loudest laugh entitled "Mutt and Jeff Divorced"? If you have not had the opportunity to make this happiness yours, Manager Perrine of the Theatre Oneonta urges you to do so when it will be offered for your approval at this popular playhouse tomorrow afternoon and evening, with a bargain matinee priced at 25c and 50c. Considered by all who have had the pleasure of seeing it to be one of the greatest laughing shows touring this season.

Matinee at 2:30 p. m. Prices 25c, 50c. Evening at 8:15 p. m. Prices 25c, 50c, 75c, \$1.

Orio Epps Appointed Appraiser.

George W. Harris of this place is one of the property appraisers for the property owners in the proceedings whereby the city of New York is to acquire the ownership of the village of Gilboa and adjacent property. Associated with him is Crosby Kelley of Fleischmanns and Orio Epps, the Oneonta architect. Mr. Harris was at Gilboa last week and the work will take several months to complete, as property maps are to be made and the appraisers have to give evidence at the hearings before the commissioners. The work is paid for by the city of New York, the compensation being \$10 per day and expenses.—Jefferson Courier.

Water Rents.

Water rents are now due and payable without commission for 20 days from April 1, at the office of the Water company, at the Wilber National bank. Open during banking hours and from 7 to 8 evenings.

DEATHS.

Mrs. Benjamin L. Crosby.

Sarah M. Whipple, wife of Benja-
min L. Crosby, who had been an in-
valid for about 10 years, suffering
from diabetes, died at her home with
her daughter, Mrs. George A. Prindle,
127 River street, Saturday night,
shortly before midnight, after long
and painful suffering. She had step-
ped from the front porch of the house
at once in nine years, yet had been
about the house until the past three
weeks. The funeral services will be
held from the residence Tuesday af-
ternoon at 2:30 o'clock. Elder John
Clark of Halcottville of the Old School
Baptist denomination of which she
was a member, will officiate, and in-
terment will be made in the Plains
cemetery.

Mrs. Crosby was born at Roxbury,
Feb. 16, 1859, the daughter of Allen
G. and Lydia (Cranston) Whipple.
Her early life and in fact until she
removed to Oneonta, was passed there
with the exception of two years
when a young woman she was engag-
ed as a teacher in Illinois. She mar-
ried Mr. Crosby in 1886. More than
20 years ago they came to Oneonta
to reside.

Surviving her are a husband, one
daughter, Mrs. Prindle at whose
home she died, and who has devotedly
cared for her during this long ill-
ness, and one son, Samuel C. Crosby,
of West Oneonta; also one brother,
Samuel Whipple, a resident of Illi-
nois. To the family the sympathy of
many friends will be extended.

OFFICIAL WAR PICTURES PLEASE

Proceeds Were \$50, which Will Be
Divided Between Red Cross and
Tobacco Fund.

At both afternoon and evening pre-
sentations of the Official War Pic-
tures at the Oneonta theatre yester-
day afternoon and evening there were
750 paid admissions, netting after the
expenses incident to securing the
films and presenting them the sum of
\$50, which will be divided between
the local Red Cross and Our Boys
in France Tobacco Fund.

The pictures were intensely interest-
ing, embracing views of Uncle
Sam's soldiers in training camps and
his sailors on board men of war, tor-
pedo boats and submarines, while the
marines were also featured in making
landing and an attack. The spectators
were given a good idea of trench
warfare, how they are constructed
and the modern ways of waging war.

The activities of cavalry were shown
effectively and there were also pic-
tures showing men of all branches
of the army at play, evidencing that
the men are not without amusement.

The pictures were all good and the
audiences were attentive and appreciat-
ing. Good music was furnished by a
volunteer orchestra which added-
ed to the pleasure of those in attend-
ance.

SEEK SIDETRACK AT UNADILLA.

John Wildi Evaporated Milk Company a Large Shipper.

Albany, April 21.—The John Wildi Evaporated Milk company of New York has made application to the Public Service commission, second district, for permission to construct, maintain and operate a switch or sidetrack across Martin Brook street in Unadilla, Otsego county, and for a determination of the manner of such crossing under section 88 railroad law. The commission has notified the Delaware and Hudson railroad and the Gladwin officials and a date for a hearing will soon be announced.

The Wildi company operates a plant on lands adjoining the Delaware and Hudson railroad and is an extensive receiver and shipper in carload lots and a track to the plant is desirable. It is proposed to construct a siding track across the highway about 60 feet south from the railroad's southbound track. The Unadilla authorities have given the required consent to cross at grade and the track will not interfere or obstruct the traveled part of Martin Brook street.

The railroad company, which will construct the track at the petitioner's expense, will begin work as soon as the application is passed upon by the commission.

JUNIOR RED CROSS WORK

Two New Organizations While work is Progressing Well in Old Ones,—Especially on Refugee Garments. During the past week two new Junior Red Cross auxiliaries were formed with a total of 45 members, making the entire membership of the Oneonta Junior Red Cross 225. One of these schools was Westville with 35 pupils and district school No. 8 at Mifflord with 10 pupils.

Work in all the auxiliaries is now going forward on refugee garments for the destitute French and Belgians. This sewing takes considerable time and patience and must be done out of school hours.

The following reports for March have been received from some of the junior organizations showing how they are working and are made public by the school committee of Oneonta:

Oneonta High school: finished work, 15 hot water bottle covers; 17 pairs of wristlets; three capes; four pairs of bootees; 11 shawls; work still out, two lady's skirts; three lady's house dresses; two boy's shirts; four children's dresses. During March 27 girls met at the surgical dressing rooms and made 755 sponges and 491 small compresses. More would have been done had it not been for the Easter vacation.

Academy street school: 36 comfort pillows; eight pairs of wristlets; ten mufflers; 22 washcloths; two sweaters.

Intermediate department. Normal school: Three hot water bottle covers; 18 comfort pillows; 7 comfort bags; 17 pillow covers; 21 hemmed muslin bandages, and the following knitting: Two afghans; 18 pairs of wristlets; three pairs of socks; one scarf; one helmet.

East End: Ten shawls; two mufflers; one pair of wristlets; one afghan.

Otsego branch (February): 51 comfort pillows; one knitted quilt; four dozen trench candles; six washcloths.

Hartwick: Two dresses; two chemises; two skirts.

Laurens: One pair of wristlets; one muffler.

Oneonta Normals in Utica.

The annual luncheon of the Utica association of Oneonta Normal school graduates was held Saturday at the Hotel Martin in that city. The occasion was a very interesting one and the attendance was very large. One hundred and twenty-five alumni of the school were present, which is forty more than at any similar previous meeting of the association.

Following the luncheon, an address of welcome was given by Miss Clara Peck, who introduced Superintendent DeCamp of the Utica schools and Prof. Arthur M. Curtis of this city as the speakers of the day. Dr. DeCamp's interesting and appropriate complimentary discourse was followed by an address by Prof. Curtis, who in the absence of Dr. Bugbee, who was unavoidably detained at home, spoke on "Patriotic Oneonta." The address was an excellent one, as always was the addressed by Mr. Curtis, and was entirely suited to the occasion and to the times.

The musical numbers which pleasantly interspersed the program were well rendered by Miss Meta Juergensen, violinist, and Miss Mary Burr vocalist.

Funeral of George Wilson.

The funeral of the late George Wilson was held at 2 p. m. yesterday at the home of his daughter, Mrs. Stephen F. Poer, 82 Elm street. Despite the unfavorable weather many friends and neighbors were in attendance. The service was conducted by Rev. Dr. James C. Evans of the First Presbyterian church. Members of the order of Odd Fellows, with which order he had long been connected, acted as bearers in this city, and the body was taken to Fergusville for interment. The committal service at the cemetery in that village was read by Rev. E. J. Lloyd, and members of the family and Fergusvillians friends acted as bearers.

Among those present from out of the city were Mr. and Mrs. Israel May and Mr. and Mrs. E. B. Dayton of Davenport Center, Rev. E. J. Lloyd of Birmingham, Pa., Mr. and Mrs. Homer Brasie and daughter of Hartwick and Mr. and Mrs. Ira Pierce of Davenport.

Building Fine Garage at Schenevus.

F. D. Bennett and Charles Bell are at Schenevus building an up-to-date garage for Chase and Tillapaugh. The building is 35 feet by 100 feet, of concrete and tile, with pressed brick front and is intended for public service and for the housing and sale of the Ford automobiles.

Gaylord Gibson Sells Farm.

Gaylord Gibson sold recently his 135 acre farm near Afton to Arthur E. Firman of Binghamton. Consideration \$8,000, including last year's hay crop. Mr. Gibson takes in part payment the property at 456 and 458 Court street, Binghamton.

Service Flag at Mill Creek.

Mrs. Cora Sullivan of Mill Creek is flying a service flag in honor of her son, Leonard, who is at Camp Dix.

You can't afford to build, but you can afford to buy what some other fellow built a few years ago before building material and labor costs climbed out of sight. I have houses in all parts of the city. Will sell you a new one, with seven rooms, on a pretty street, for less than \$3,000. W. D. Bush, Oneonta Hotel building. Phone 110-W.

House and barn with about one-half acre land and four acre lot handy for shopman, \$1,600. Easy terms. Campbell Brothers advt. 41

To boom the sale of Liberty Bonds

Otsego county this week a Liberty Loan party starts this morning for a week's campaign with the schedule embracing rallies in many of the larger villages. The rally in Oneonta is

booked for Friday evening at the state

armory. In the party will be A. J.

McAllister, in charge of Otsego county

for the Federal reserve committee,

a 30-piece band from this city.

Sergeant Downes of the Twenty-third Canadian Field artillery, who has

spent two years in the service in

France and who was injured in the

battle of the Somme and who will give

a 30-minute talk upon Personal Ex-

periences with picture films and slides;

Private Weiss, of the 71st, N. G. N. Y.,

who is a singer, and Prof. H. L. Jones

of Cornell university, who will talk

upon the Liberty Loan.

The Oneonta band will leave this

morning at 9:50 o'clock and will be

joined at Cobleskill by the other mem-

bers of the party. They will arrive

at Cherry Valley at 2:30 o'clock and

the band will give a concert during

the afternoon in the square. The

rally will be held in the evening. The

program will be similar at each place

visited and will embrace in addition

to a 10-minute address of welcome

following the Star Spangled Banner,

the following: Picture, Current

Events; song, Over There, Private

Weiss; picture, The Seventh Son; song,

Pershing Will Cross the Rhine, Pri-

vate Weiss; picture, Swatting the Kai-

ser; address, My Personal Experiences,

of the Somme; song, It's a Long Way

to Berlin, Private Weiss; picture, Ani-

mated Cartoons; address, Liberty

Bonds, Prof. H. L. Jones, of Cornell

university; The Liberty Anthem, Band

and Chorus.

On Tuesday the party will go to

Richfield Springs by motor cars. At

2 p. m. the parade will start and end

with the raising of the Honor Flag.

At 3 o'clock there will be a band

concert in the park and a mass

meeting in the hall. Another mass

meeting will be held in the evening at 8 o'clock.

On Wednesday the party goes to

Edmeston, taking the D. L. & W. to

West Winfield, where they will be

met by motor cars and taken to Ed-

emeston. In the afternoon the band

will give a concert and a mass meet-

ing held in the evening.

On Thursday the party goes to

Cooperstown by motor car, arriving there

at 11:30 o'clock. At 1:30 o'clock the

band will give a concert and in the

afternoon a rally for children and

others will be held at village hall.

At 6:30 the band will give a short

concert, followed by a mass meeting

in the village hall at 7 o'clock. The

band will leave for Hartwick at 7:15

and give a concert on arrival there.

At 8:30 a patriotic rally will be held

MRS. DOOLEY'S ADVICE TO WORKING GIRLS
